

Technical Data Sheet

PRIME SERIES

English version
REV 05/2017

Article numbers

04000-xx-xx-xx
06000-xx-xx-xx
11000-xx-xx-xx

xx = any given number according to specifications for example colours and labels.

Product information

The Prime series is a very flexible and innovative set of square high quality containers. They are specially designed for a safe working environment at a hospital or health care establishment. Prime are designed with extra wall thickness to prevent penetration. All sizes are stackable both empty and full. They are all equipped with universal needle disconnectors, universal blade disconnectors, QuickFit alternative, Leur lock and slip disconnectors. They are able to be locked both temporarily and permanently. The latter one is indicated by a flap with a lock showing that it is permanently locked.

Prime has a visible fill line that indicates when the container is full. All sizes are fully autoclavable and equipped with handles in order to help the transportation. The available sizes are 4 litres, 6 litres, and 11 litres.

Key Benefits

- UN and ADR approved
- Protected access - Preventing coming in contact with waste
- Stackable both empty and full
- Tailored to pallet size
- Marking for maximum filling level
- Autoclavable
- The lid can be sealed either temporarily or permanently
- Manufactured in environmentally friendly PP

Main characteristics

Available sizes:	4, 6 and 11 litre
Standard colouring:	Yellow
Material:	PP Copolymer

Environmental Compliance

REACH - Registration, Evaluation, Authorisation and restriction of Chemicals

REACH (EC/1907/2006) is the European Community Regulation on chemicals and their safe use, in force since 2007. REACH is a regulation and therefore directly applicable throughout all EU Member States. It does not require transposition into national laws of Member States.

Safebox comply with the restrictions laid down in REACH.
